Dr. Moses T. Rambarran BSc , MD,

Moses V. Rambarran, BSc. LLB, LLM.

Rohan Rambarran, BSc. Eng.

The constant daily blackouts over the country are taking its toll on the citizen's, many are suffering from blackouts fatigue resulting in a gloom and a damn feeling bordering on hopelessness.

Researchers at the institute found when comparing the March 15th basket of goods to the April 15th basket of goods there was not much movement in the inflation rate. They found the prices of provision went down by 21% while greens went up by 10% and meat fell by 5%. There was little movement in the prices of groceries as a whole. Upon analysis the institute found no increase in inflation for the said period.

Our next publication will be on May 15th 2024.

Chairman

J. Rambarran
